The mini-balloon camp is the smaller sibling of the Franco-German youth camp. It is aimed at children between the ages of 8 and 12. The project was initiated by the Franco-German Youth Office. Reason is the realization that the enthusiasm for a thing often arises at a young age. And one would like to inspire therefore already in young years for the exchange. But this is also true for ballooning, and since you have to be older to be an active balloonist, many have already decided at this age for something else. The camp took place in 2018 Germany, 2019 France, 2021 France. It takes place in Germany and France in annual rotation. Report on the first one in 2018 at the following link:
